

ALERT!

HOTEL DEL CORONADO'S NEW DEVELOPMENT PLAN

The Hotel Del Coronado is proposing building new condominium/hotel rooms on the beach and a convention center directly behind the rooms. This complex will be 50 to 58 feet in height and stretch most of the length of Avenida del Sol. This will create a long, continuous wall of buildings with no green space in between. Delivery trucks (up to 10 a day) will enter the convention center from Avenida del Sol. The hotel entrance will also be on Avenida del Sol. This 2008 Amended Master Plan is drastically different from the 2002 Master Plan approved by the city council. The result will be a significant increase in traffic, congestion, noise, and pollution that will impact Coronado Shores residents.

Please attend an informational meeting to learn more about the Hotel Del's plans. We will provide information on how you can make your concerns be heard as well as how to get involved and make a difference. The Hotel Del Coronado is the jewel of the island and we'd like to keep it that way.
